l'air en courant apparaît parfois
d'une manière souvent d'une autre

l'eau se mélange au vin
si on le verse en premier
mais refuse de se mêler à l'huile
qui lui répugne

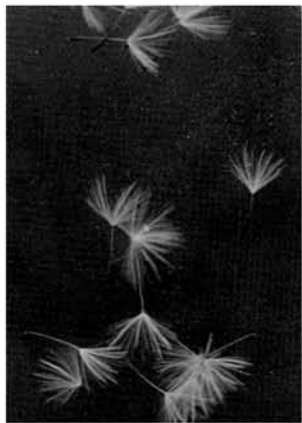

le tourbillon est la cause de tout

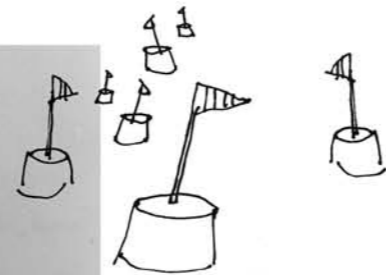

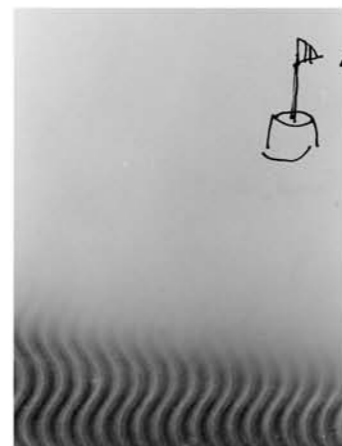

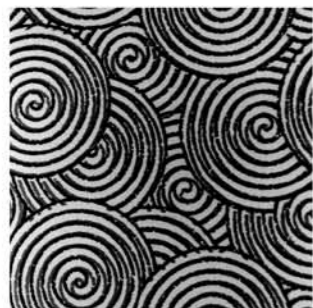

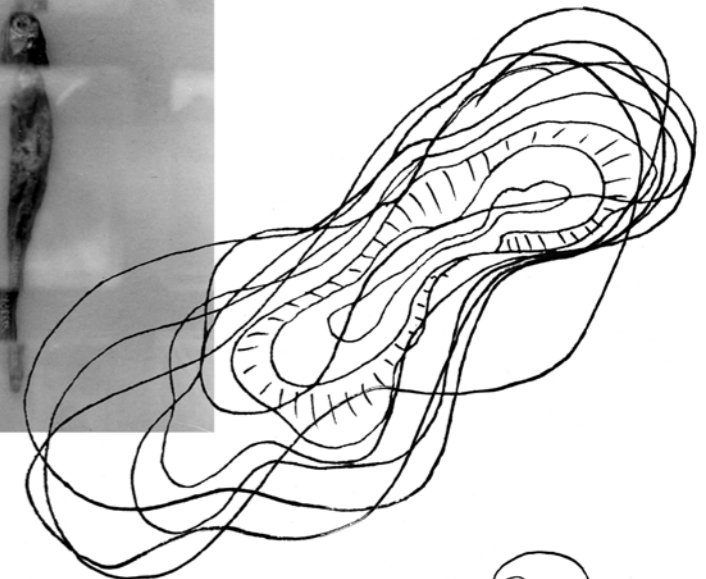

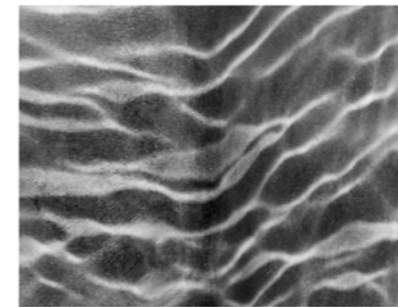

(ça chauffe!)

le vent transforme
des bigorneaux,
abat une maison,
fait frissonner l'herbe
l'herbe qui à son tour
fait frissonner le monde

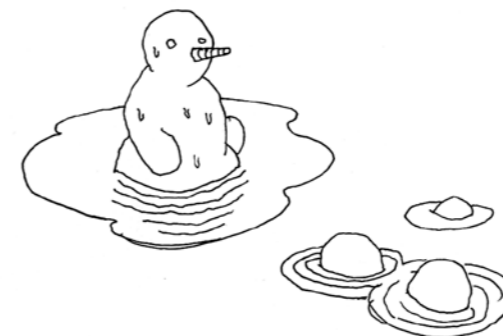

t'en veux? 😊

esprits de plume et d'air

démons de l'inconstance

tu ne serais de baigner deux fois
dans le même fleuve, s'écoulant
d'autres eaux
